This used to be my favorite book when I was a little girl. Now that I have 3 young kids of my own, we ran across this book at the library recently and it brought back so many great memories for me! My kids loved singing through it with me so much that I knew we needed to order it once our library copy was due back. The only downside with this copy off is that it was surprisingly small, but size doesn’t affect how infectious this book is for children! Buy it!

I bought three of these because I remembered loving them when I was little. I don’t remember the books being this small, but it is as described, so it was no shock that it was tiny. The size is fine for little hands, but would be better if it were made into a boardbook. The print is not so small that it is difficult to read. I am not sure why other reviewers have complained about that. If I knew that the "lap edition" sold would come bigger than this, I would have gotten that instead. That is why I am giving it 4 stars, because it would be better if it was bigger, since the illustrations are so great. But I think from the reviews the lap edition is the same tiny size. If you are looking for something of a normal size, this isn’t for you.

Even if you prefer your chicken soup with noodles, you can’t deny the appeal of the rhythms and rhymes (and illustrations) of these verses. Our family relished this book years ago, and I was delighted to find it now available as a board book for even the youngest grandchild.

A great little book! Just the right size for little hands. I received all the books I ordered in a timely manner and gave them to my students at the end of the year. They loved them and loved saying the

poems for each month. Good for practicing reading, learning the months of the year, and working with rhyming and poetry.

Cute book. Just make sure you know you are buying a pocket book. Very small sized book.

Had to replace the one my wife had since she was a kid. Our dog must have thought it was actually chicken soup...great book.

My 15 month old grandson brings it to me to read.

smaller than the one I have... but it works. ;)
