Grade Level: Preschool and up

Customer Reviews

PreS-Gr 1Ã¢â ¬â •This visual encyclopedia introduces a variety of first words and concepts to preschool audiences. The content is organized into sections such as "First Things to Learn," "Things to Do with You," and "Things Around the World." Each spread shows a scene focused on a different theme with parts of the picture clearly labeled. Visually, the book works well, with all caps text that is large and easy to read. The digitally created illustrations are minimalistic and have an appealingly vintage feel. However, the organizational structure is not exactly intuitive. For example, "Things Around the World" includes pages about the seasons and weather, while "Things in Nature" contains a page called "What's in the Fruit Bowl?" Also, children will have difficulty distinguishing

between the blue, light blue, and dark blue hues on the color spread. Despite the drawbacks, this book does have a lot to offer: the illustrations are eye-catching, and youngsters will enjoy searching for the mouse hidden on every page. VERDICT A serviceable addition for children discovering and exploring the world around them for the first time.Ã¢â ¬â •Kimberly Tolson, Medfield Public Library, MA

Ã¢â ¬Å“The retro-style illustrations in this book are what first caught my eyeÃ¢â ¬Â¦ I love books like thisÃ¢â ¬Â• - Scary Mommy"This book does have a lot to offer: the illustrations are eye-catching, and youngsters will enjoy searching for the mouse hidden on every page." - School Library Journal"Help babies learn their first words with this visual encyclopedia. It’s educational and adorable." - Glitter Guide"Familiar figures and concepts depicted in a simple graphic style invite very young children to catalog and identify many of the items they might encounter in their everyday worlds." - Kirkus Reviews"A visual encyclopedia of things to spot and say with a difference, the pictures are strong, bold and dominate the page, the labels are clear and defined but it is not just about the learning, it comes with a game too, a little mouse to spot on every page! Compulsive and instructional fun, minimal and modern." - Armadillo"To bill this book as a ’vocabulary builder’ is to woefully underplay its hand. Study hard and this book will see you safely through nursery and in to reception as an assured four year old who can hold their own in the cut and thrust of classroom debate... the book is huggable, sniffable and strokable. The bright, digitally created images are easy on the eye, with kid and parent appeal and an air of comforting naivity. The clear font is helpful for early readers." - The Bookbag

I originally found this book in Barnes & Noble, but it was so expensive that I looked it up online and bought it from . I love to read it to my daughter. It is very educational, but in a fun way! My daughter loves to find the little red mouse on every page!

Like the author/illustrator’s other books, the illustrations featured in this book remind me of the 1950s-era Scandinavian and European books of my childhood. Simplified, charming images that I felt were perfect for my 3 1/2 year old. We read this several times per week - she insists!

I bought this for my soon-to-be-2-year-old granddaughter. She LOVES it. She can find the mouse (and anything else requested of her) so fast! And wants to read this book over and over. Definitely recommend this book!!

Got this for my 18 month old niece. When my sister opened the book, my niece pointed and said "owl" right away! Perfect book for starting to learn words. Plus it’s beautiful! A real treat for the eyes!

This should be the new standard book to give to new parents. It is a great book filled with so many different things to name with a little one. Beautifully designed and well constructed. A copy had to be purchased for the Grandparent’s house becauseÃƒÂ¢Ã â ¬Ã â it was loved so much.

This book is so beautifully illustrated! My 3 year old loves it! I do too! My daughter has already learned most of what the book teaches, but I wish I had bought this earlier! It’s so darn cute!

b

Such a lovely book for children to use as a "find it" book. The art is very appealing to adults, the only thing I didn’t like was the colors page wasn’t very helpful.
