Customer Reviews

great book,helping me with my exercise program,love it.

There was so much that I learned from this book. For me and my body it is a process of learning what I can change. I am a very picky eater and do not like diets. So big adjustments on anything are hard for me. But with this book I finally felt like I got a good idea of what I can change. There is so much more that I want to take from this book. It is one that will be with me for a long period of time.

This book is exceptionally fascinating, but it is not really what it says on the cover. There are different propensities displayed in it that would absolutely help with losing weight.There is a mind boggling measure of information.I as yet folowing the given tips and procedures for getting results.My belly fat soften and lost some inches.Hope its work more...

I cant believe how effective this book is. Contains the best ways to melt body fat specifically around the belly.I have been trying to get rid off the extra belly fat since a while now but nothing has worked out until now.I will recommend this book to anyone and everyone looking to loose belly fat

Everyone would benefit from implementing these habits into his/her life, but that is not so easy and this book can only help as a guide. Most of the work still depends on the person. But it is a good book and it has value. Recommended.

Great book on how to burn that belly fat !! It’s easy and has great tips to help you loose weight !

Fantastic fat burner guide! Highly valuable tips and the guide is a read game changer! Thank you!

great book!!! It’s easy to read and very helpful tips to loose weight !
