Excellent value, and can keep young children entertained for a few minutes.Now these books are small--but that's kind of the point of these book, I think. They're portable, easy to throw in a briefcase or purse or back of the car, and handy to give to children at the doctor's office waiting room, or in an airport, or on a car trip, or at a restaurant waiting for food, or really, just anywhere where you want to have a short educational (or semi-educational) activity.And I gotta admit, I like that this is an "un-plugged" option. Not on a phone or tablet or screen--just a good old-fashioned book with simple activities, vivid illustrations, and things to *do*--that is, an active, tactile experience--even if the activities are quite simple (like peeling stickers).We don't leave home without a few of these. (Just be prepared, if you haven't ordered these before, for a small booklet, not a *book* book.)By the way, we also used these as party favors for a recent kid's

firetruck-themed birthday party, and they were a big hit.

Super happy with this book. I bought it on a whim as the price was great and my son received a Crayola marker air brush for his birthday; we were looking for more stencils. My biggest concern before ordering is I wasn't sure what the pages would be like. I just want to note they are heavier than a regular piece of paper and coated, as opposed to thin paper. For this reason I think they will hold up for multiple uses. The pages of the book were stuck together when we received them but they easily pulled apart -- however this isn't something I would let my 7 year old do on his own as they may have ripped it.

These stencils are on heavy coated stock, one 5" vehicle on each page. The stencils are cut perfectly with only a few small parts to push out easily with my finger. Our 4-year old grandson was able to decorate a door window using window markers and these stencils. I have used several of the stencils with red fabric paint and small art brushes on a child's size white apron and chef's hat. They can be a bit tricky to keep flat for the liquid paint, but some double-sided photo tape solved that problem. I wiped off the stencils with a damp paper towel, and they are ready to reuse.

cute little book of stencils; pages may be hard to separate. I do like it, I will buy another one.

These seem pretty good quality, but it would be nice if they could make them out of a light grade plastic instead of paper, which gets written on and isn't cleanable. Not really suitable for the 3 yo range as the paper will tear as well... but for an older child this is a great stencil.

Small and flimsy. One of them ripped immediately

Four and five year old grandchildren love these and can keep busy for hours tracing and coloring and cutting out. Great activity.

Sturdy stencils (they are the thickness of the cover on a coloring book). They tear out easily or stay as a booklet - you decide. One stencil per page. My 4 year old loves them!
