Age Range: 2 - 5 years

Grade Level: Preschool - Kindergarten

Customer Reviews

I bought this book because my youngest son, as his school's Halloween costume party rules required him to bring a book that had his costume choice as a character. It would have been difficult to find a classic like this without 's help.The book is a classic children's book, and as such, it is written somewhat archaically compared to modern children's books. Instead of taking away stars for this as some reviewers have, it seems a perfect way to introduce a young child to the concept that English is a living language that evolves over time. There is no way that I can see this as a disadvantage.Great purchase, and my son has placed this book in a prominent position on his bookshelf, because he loves how "old" it is.

I purchased this for a Christmas gift. I love this book --after looking at it I can remember this book as a child. It was published in 1956. Yes, the pictures are from that era, as well as the story. It may be old school but nothing is wrong with that. I am sure my grandson will love it. I purchased it to go with

the Lone Ranger Lego set I also bought him. It makes a great gift set. It is a Little Golden Book and that means quality. It is a classic book with a classic story -- the good guys win!

I bought this book for my grandchildren. They loved It so much, they each wanted their own copy, so bought one for each of them. A classic, favorite, timeless children's book.. Good to read to a child. Great book to encourage a child to practice reading on their own.

My 2-year old loves the Lone Ranger and requests this book often at bedtime. I wish they had other Lone Ranger stories (as hearing this one over and over gets to be too much!).

Childhood classic

Bought a bunch of these Golden books for the grandkids. Good quality. Just like the ones I gave them that were 45+ years old.

Awesome!!!

Perfect length story for little ones!
