Customer Reviews

I answered about 4000 questions. Made it to level 7.9. Passed the NCLEX in 75 questions. PrepU will give you repeated questions, and the level 7/8 questions (1-8 scale) are pretty challenging. Read rationales and copy over notes for review. Hope this helps, and good luck!

Another RN study tool. Item arrived fast and as described. Uses adaptive learning technology to assess knowledge base. Input access code into prepu website for adaptive learning NCLEX style questions.

If I did not purchase this online NCLEX-RN 10,000 course I would not be able to pass my board's exam. I loved the rationales and the chart that showed how I was doing so far compared to national level (my progress).Thank you sooo much for such an amazing review course. PrepU is #1 preparation material that I would strongly recommend every nursing student to purchase and practice so many questions. My money worth spending it. It helped me to pass my NCLEX exam easily.Thank you. I loved it!

This is a must buy. It really helped me with understanding computer adaptive tests for the NCLEX. It was one of the tools I uses to help me pass the test.

It was delivered quickly and was a better program than what I initally thought. I like the idea of not

using CD's and getting online using a code only. I can access this product on any computer at any time. I received a great product at a great price. Ordering on is the quickest and least expensive way of ordering products.

Works with Mac!! Great product!! Really helps to get the hang of NCLEX style exam questions!!!

I don't like having to have access to a computer or laptop in order to use this product. I hardly use it for that reason. For me, I find that books are easier to use since I can leave them around anywhere and just pick up when I have a few minutes. Where I live, weather sometimes causes a problem getting internet access.

Prep U was a required study material for my nursing courses and it has honestly helped out so much. It is so helpful in giving rationales to all of the questions and keeps track of your progress. I like that it has all sorts of different topics you are able to choose from and practice on your own along with what your instructor assigns. So far no disadvantages to this product.
