Synopsis

A fascinating account of the world’s famous explorers, including the early travelers in ancient times, the discovery of the New World, explorations in Africa and Australia, and the expeditions to the Arctic and Antarctic. Many of the explorers tell part of their story in their own words. Amply illustrated with reproductions of early maps and charts, as well as old woodcuts, drawings, paintings, and miniatures. Emphasis is placed on the explorers’ "record of splendid endurance, of hardships bravely borne, of silent toil, of courage and resolution unequalled in the annals of mankind, of self-sacrifice unrivalled and faithful lives laid ungrudgingly down." Suitable for ages 12 and up.

Book Information

Paperback: 548 pages

Publisher: Yesterday’s Classics (May 7, 2007)

Customer Reviews

This is a great "spine" for an exploration unit ... covers all areas of the world ... many explorers who are often ignored ... and generally gives a great start to studying exploration. The "chapters" are only 3-4 pages long ... takes about 20 minutes to read-aloud ... and then the fun begins!LOVE this book for our homeschool

Nice background on the age of exploration. The Kindle version did not have the illustrations which was a big loss.

I truly enjoyed this book. It covers a lot of ground (no pun intended) and a lot of people. It is not the same old ’lives of the well-knowns’. It skips what we have already read and opens up a lot of new stories.

This book provides much information on early exploration. For ventures in the late 19th century and later,it lacks much up-to-date info; e.g.: it ascribes scurvy to salt meat not vitamin C deficiency. should make clear the original date of publication.

Excellent synopsis the history of exploration given the reader insights on subjects for further reading.

A short but good approach of the history of human exploration.

This book goes in-depth about the experiences of Europe's bravest explorers.

Excellent book 8n great condition
