Synopsis

The most popular villain from A Certain Scientific Railgun turns antihero in his own manga seriesA Certain Scientific Accelerator is an ongoing manga series spun off directly from the pages of New York Times bestseller A Certain Scientific Railgun. Series author Kazuma Kamachi deepens the world of Academy City as portrayed in A Certain Scientific Railgun and A Certain Magical Index, giving the spotlight to the sinister Accelerator in this highly-anticipated spin-off. A Certain Scientific Accelerator features color inserts in each volume. The "Certain" franchise began with the long-running light novel series A Certain Magical Index, which was adapted into both a manga and an anime series. Its spin-off, A Certain Scientific Railgun, became a breakout hit. Welcome to a world where mysticism and science collide, and supernatural powers are derived from either science or religion. At the heart of this world is Academy City, an advanced metropolis whose population is comprised mostly of students. The majority of students are enrolled in the city's "Power Curriculum Program," where they must learn to master their latent psychic powers.
