This is a good orientation to your new Kindle Fire HD and this briefly explains some features of the tablet, but leaves a lot of the basics unexplored and what I really needed was a troubleshooting guide, and this manual didn't address any of my issues and IÃƒÂ¢Ã â ¬Ã â„¢ve got Kindle Fire recently as a gift and I decided to try this guide and ItÃƒÂ¢Ã â ¬Ã â„¢s a great guide for the beginner as it tells all the necessary information about apps, features and troubleshooting and It has helped with many things about my Kindle Fire and I am satisfied with this guide and Kindle Fire is a great device and I am glad IÃƒÂ¢Ã â ¬Ã â„¢ve got this guide and ItÃƒÂ¢Ã â ¬Ã â„¢s well written and it helped me to understand everything about Kindle Fire and You can learn ÃƒÂ¢Ã â ¬Ã Å“insÃƒÂ¢Ã â ¬Ã Â• and ÃƒÂ¢Ã â ¬Ã Å“outsÃƒÂ¢Ã â ¬Ã Â• of your kindle device with this book.

This client control is a magnificent help for the individuals who are new to this unfathomable gadget. It is a decent manual with pictures to take in the correct methodology. From this book you will take in about the settings and how you can customize your fire HD. This book was anything but difficult to take after and get it. Idealize read uniquely in the event that you are a novices. Awesome data that will direct all of you through out.Recommended.

Everything I have received has been in great condition. The book was brand new and very informative. I would buy again from them. Good info, but sad you have to buy one because the Kindle Fire doesn't come with a manual. Great book if you ever have a question on your Kindle. Easy to read and understand.

From this book you will learn all about the settings and how you can personalize your fire HD. This book was easy to follow and understand. You just need that book and go true all the steps and you will learn really easy how to do it for your self.

This book is a good reference book to help a first time user get the most knowledge about their new device. The guide is so useful. It gives you all the information you need to get the most out of your

kindle and its easy to understand.

This book is a good reference book to help a first time user get the most knowledge about their new device. I am thoroughly enjoying my new Kindle! Thank you for a very fine product.

I have concentrated more on the 7" Fire, which is the tablet that I purchased. I have no desire to view movies or listen to music so the document doesn't help me very much. Documents that I want to put on my tables causes an note that indicates that I should put it else it puts it someplace and I can not find it when I want is. That is real disappointing.. I don't know if it is the table or the user manuals. My old Radio Shack Table is very straight forward and I can always find what I want quickly.

This was a detailed and informative manual, it was very helpful. This manual has guided me to a lot of stuff I didn't even think the kindle fire could do.
