Synopsis

Learn to draw a portrait in 15 minutes! In the past ten years, I have earned thousands of dollars sitting at events and drawing fast sketches of peopleÃ¢â ¬â„¢s faces. Customer Reviews

Honestly, I like books like this that donÃƒÂ¢Ã â ¬Ã â„¢t get lost in a vast list of materials and how to hold the pencil and what kind of drawing paper to get and so forth. Mr.Noot goes straight to the point and offers good advice on how to get a fast sketch done on faces. The authorÃƒÂ¢Ã â ¬Ã â„¢s proposition is accomplished with plenty of examples on how to achieve this goal. Good for those already acquainted with drawing portraits. Very nice Kindle edition.

Draw faces is another great book by Vincent Noot. In this book there are all tips and advice for drawing faces easy and quickly. If someone has a passion with drawing in this book can find all necessary information. Also inside the book there are a lot of pictures about drawing faces step by step! Nice Job!

This is a special technique that will enable you to end up noticeably better speedier. Try not to hold up and snatch this fabulous possibility of turning into a quick picture craftsman! While you’re portraying as quick as you can and taking a gander at the facial elements, examining everything in your brains, there are sure deceives you can apply, questions you need to ask yourself when you’re dissecting a face, and tips you should know with a specific end goal to limit the time you spend on them. You will rapidly pick up trust in drawing, shading and shading a perfect face, it is not something that exclusive a calling craftsman can accomplish. Drawing a representation rapidly requires more than whatever else bunches of training and preferable aides over this one.

I’m new to drawing faces and portraits and consider this one of the more difficult things to capture correctly. Vincent’s book is a great introduction to learning how to do it in a way that captures the models real likeness. Sure... you could spend much more time on the fine details but being able to draw portraits in 10-15 minutes that really look like the model? That would be wonderful! Great job Vincent. I recommend this book highly and cant wait to start drawing friends and family. Way to go!

OK this is a fast lesson on how to draw fast. I like the the format, each step has a list of questions that the artist needs to ask him/her self to be able to do the step properly. Also, I appreciated the author’s comments on what to do with the face outline. I read this book once and I will surely read it again several more times.

Buy this book!!! It is a must for the budding artist and even the established artist will get something out of this book.You will quickly gain confidence in drawing, coloring and shading a gorgeous face, it is not something that only a profession artist can achieve. I love this book, inspirational and wonderful addition to my mixed media art library (you will not regret this purchase)

Very good but not for bigner

A nice book to get inspired to do fast sketches, an easy and fast read and it goes right to the point. I think you already need some experience to get it done, that means, it isn’t a book for absolute beginners. I’ve already done some portraits from photographs what surely will help with doing portraits in a time limit. I definitely got me in the mood to try it out.
