Katie Clemons is a storycatcher and award-winning journal crafter. She helps folks celebrate their life stories and nurture deeper bonds with their families while finding greater joy and gratitude. A fifth generation Montanan, Katie shares her storycatching discoveries at www.gadanke.com.

I got this for my 8 year old son as part of his writing practice in our homeschool. He really enjoys it. The premise/story at the beginning is clever and a fun way to engage kids.

My son of 9 has this journal and we are both having lots of fun with it! So far he's drawn himself as a

pirate, learnt why we named him how we did and he’s had a good think about his characteristics. The journal is a great conversation starter about random things with your children, a fantastic way for my son to calm his mind - and have fun with his imagination. It’s also been a useful tool to teach him that there is no right and wrong answer when it comes to how you view your world and yourself - so writing in his journal is building his self confidence too. It’s so much fun watching him engrossed in the prompts.What I also love about this book is that I know for sure one day, in years to come, we’ll look back through all the writing prompts, pictures he’s drawn and thoughts he’s captured and be captivated - a piece of family history in the making!As soon as my other two sons can write they’ll both be getting one of these too - it’s something every kid should own!!

This is a really thoughtful journal full of activities and writing prompts designed just for your kiddo! I love it! When I was a kid we did something like this in school, and I not only loved the project, but I love looking back on it too. I bet your kiddo will too.It has a good mix of questions, identifying info for your child, spots for pictures, etc. There is a good mix. I can see this easily turning into a number of days full of projects for a kid.Another reviewer mentions that it looks like it is for a boy, and I really don’t think it’s that gendered. I think it could easily be for a girl or a boy. (I mean, girls can be pirates....right?)Really thoughtful, well-made, fun journal. Would be a great gift!

This journal is truly amazing. What a wonderful way for a kiddo to capture memories about him/herself!Things I love about the journal:1. The writing prompts - each page has a well thought out prompt to get the kid to write about something different. Examples include: Things I’m going to build, Food I love, Things I do each day, If I were the family cook. The pages have great text font and a variety of different designs.2. The book really is a time capsule - it is meant to be hidden! When the kid finishes the journal, he/she draws a map on the last page and actually hides the book! What a creative idea! I wish that I had this journal when I was a kid - I would love to see what I would have written.3. The quality of the book - the cover is matte, but feels very smooth. I love the size, design and cover colors. The book is printed in the USA.4. I will be buying several copies of the journal to give to kids I know. What a great birthday or Christmas present!

I love this kid’s journal! I gave a few of these journals as gifts because I think they do a great job making journaling fun. The writing prompts are great and approachable, and the "time capsule" theme is a lot of fun. The author clearly has a great creative mind and is passionate about helping kids record their stories.I wish I’d used something like this when I was a kid.I noticed one reviewer

said it wasn't gender neutral or girly enough - but I respectfully disagree. As a mom of a toddler girl, I often wish there were more kids items that veered away from the girly stereotype. I hope that my daughter can enjoy using one of these in a few years, to spark her creative, wild, and adventurous - and dare I say tomboy? - side.All in all, a great product!

I am a mom of an 8 year old son and have been looking for some fun things for us to do this summer while he is out of school. I am very big on recording memories and documenting our lives through photographs. So when I saw this Time Capsule Journal I knew it would be perfect for him to do this summer. When it arrived we both became very excited with all the pages we saw. The book overall is made very well and is a paper back. There are some easy answer pages to fill in and some that he will have to really think about before completing. I like that they will not all be easy answers so that he can reflect and possibly learn more about himself through the process of this journal. He is super excited to get started and I am thinking of making some time each week for him to set down are work on this. We also bought the Mom & Me journal from this author and am excited to do it together too.

This journal is so thoughtfully constructed and designed to help kiddos become self-reflecting, by guiding them through the process of recording their thoughts and the events they've experienced. What's so great about this journal is the places to put photos and other bits and bobs of childhood. As someone who has several of Katie's other journals, it's so encouraging to have a way for the next generation to begin to journal and connect with the written word - skills that have such value and yet are often ignored in this digital age.

The Time Capsule journal is a great way to preserve the precious and silly thoughts of childhood, and to give kids a chance to examine who they are and who they hope to become. It would be an excellent addition to classrooms as an exercise in self discovery and creativity. The writing prompts give kids a chance to open up without feeling forced to follow specific rules or guidelines, and allow them to just have fun and be themselves. I truly wish I had been given a journal like this as a child.
