Customer Reviews

This is a very well written book including many different stories of missionary kids seeing the different aspects of teaching and serving in other countries. There is abundant information about different cultures, climates and experiences that is written to inspire young Christians to relate to world missions. The facts about the different countries helps the reader learn about the location and

brings the missionary kids stories to life. The illustrations are wonderful. The gospel message is evident in each story. This is a mainstay for any church library or missionary house in the US. I highly recommend this book.

"Missionary Kid Stories" is a fun book for kids and adults alike. Those reading the various stories are able to see how different life is in various countries, as well as how individuals & families can serve and love others in different cultures. The stories are fun and the pictures are colorful, it is a great read! This is a great book to broaden our children's perspectives and create a passion in them for loving others, whether locally or abroad.

Great book to expand our ethnocentric thinking for both adults and kids. Jennifer gives us a glimpse into the worlds of six missionary kids around the globe and the different roles their missionary parents play. She paints a beautiful picture of their culture, language, climate, geography and religion. Educational and kid-friendly, it also challenges them to consider a future in missions.

Where has this book been? It helps fill a very important area for children. The book gives lots of information (in kid speak), generates questions while being fun and opens children's minds to the world around them. Love the artwork!
