Dan Brownell has edited 45 books, including the first edition of this book, Warman?s Star Wars Field Guide and Antique Trader Bottles Price Guide, during his tenure with Krause Publications.

very informative; easy to follow and well illustrated

best and most updated guide. easy to follow!

This is the best little book ever, (Tool for us collectors) can take it with you everywhere, compact and neat. 4 x 5". Use as a resource manual. I got into beanie baby collecting in 2006, buying Holiday beanies. Love to look through and see which ones I want to purchase, search for, or verify

which one I actually have. I will not tell my age, but its over the age limit for beanie collectors, but I am addicted. The pictures are bright and they are referenced by Name*****. So easy to use, may purchase several copies due to wear already.

Great source for beanie lovers and collectors alike.

The book was very helpful in finding prices and information on variations.I would like it better if the layout was different...better spaced not so cramped up together

This book is a must for Plush Bear collectors. In one book was able to find values and identification for each category of bears manufactured by Ty. Book is small enough to carry in your purse for quick reference when out on the road. Perfect!

Great book for those who want to get an idea of the value of their Beanies.

ok.
