Customer Reviews

I love these series. But most important that my son does. I order 20+ books and he loves to read them (usually it is not that easy to make him read). I got mix of 2-3-4 levels for the second grader, second level is too easy, but it creates some fun and he reads them with pleasure. Love it, I would recommend it.

My Grandson had Teenage Mutant Ninja Turtles for his 7th birthday themed party so I had to get a new book for part of his birthday gift. He loved it and began reading it right away. He is an avid reader that is why I chose this level 4 book.

My 5 year old grandson loves these. They are perfect to keep him interested while challenging his

new reading skills. I'll be buying more.

Great reader for my first grader!

My son developed a slight obsession to Ninja Turtles due to a multitude of TMNT gifts for his birthday. I wanted to direct his attention somewhere other than the TV and the ninja turtle movies. He loves these books. He isn't old enough to read them by himself yet, but he recognized some of the site words, and its one of his favorites.

Son loves TMNT - and because of his level of interest, he has taken great strides in learning to read their books, which in turn has helped develop his overall reading ability. I bought this book while he was 6, and there were a few words he stumbled over, but now reads it easily, and so much so, I think he's outgrown it. It's a great book, though, and like the way it's written, to benchmark the reading level for certain ages/grades.

Bought this for my step son who is 9, he is behind on his reading level so this is perfect for him. He doesn't get bored since there aren't huge paragraphs, nice pictures, and some new words for him to learn.

This book was great for my 11 year old son, he has a reading disability but loves the turtles. He enjoyed reading about their adventures and get the reading he needs to get him to the next level.
