Melanie Mitchell has served on the ministry team of Word of Life Centre in Red Deer, Canada, since 1996. She is a gifted communicator passionate about helping people move forward into their destiny and purpose. Her dynamic teaching ability and inspiring words challenge people to be all they were created to be.

The information is short and sweet in this book. I didn’t realize how tiny it would be. It’s not a good size for reading to whole group but is okay if you project on the ELMO (projector).

:)

This book was used as a resource for teaching a unit on the moon to a Kindergarten class. It is a smaller sized book so I used my document camera to enlarge the photos. It gave sufficient information to the children on their level. Happy with the purchase.

Great book for my kindergarteners to learn about the moon

It was just what I wanted. Not too complex and not too childish.

When we go to the library, my daughter likes to pick books for me to read to her or for her to look through herself. This is one that I decided to check out and she really enjoys it. I was aware that the book wasn't designed for kids her age, but each page has only one (educational!) sentence on it and she loves the pictures, so why not? I'm going to look into more books in this series.P.S. My daughter is 19 months old. :)
