Synopsis

The time has come for Max and her winged "Flock" to face their ultimate enemy and discover their original purpose: to defeat the takeover of "Re-evolution," a sinister experiment to re-engineer a select population into a scientifically superior master race...and to terminate the rest. Max, Fang, Iggy, Nudge, Gasman, and Angel have always worked together to defeat the forces working against them-but can they save the world when they are torn apart, living in hiding and captivity, halfway across the globe from one another?

Book Information

Customer Reviews

James Patterson has had more New York Times bestsellers than any other writer, ever, according to Guinness World Records. Since his first novel won the Edgar Award in 1977 James Patterson’s books have sold more than 300 million copies. He is the author of the Alex Cross novels, the most popular detective series of the past twenty-five years, including Kiss the Girls and Along Came a Spider. He writes full-time and lives in Florida with his family.

Wow, this book has amazing artwork, as always, and the plot only thickens. Plus there is a very big plot twist (which I won’t spoil for you) and for anyone who has been thinking that they can just skip this book, or wants to join in the middle of the series, I would suggest buying from the beginning because there are a lot of details that you will miss. But what is good about this book is that it does

have a lot of flashback moments in it, so you can jump in here with minimal knowledge about the series itself although I suggest that you start from the beginning.All in all this is an awesome book and I highly suggest this!

This series has been keeping my kids busy this summer. They wait for the mailman to run to see if their next book in the series has come yet. I may read the first book, it sounds interesting. My kids think I'll love it as much as they do.

My daughter and I have enjoyed reading this manga series of James Patterson's Maximum Ride novels. They are exciting, intriguing, and fun stories about a flock of bird-kids. Their adventures keep me turning the page, the challenges they face keep my heart rate up, and their antics keep me smiling. They are a fascinating group of kids trying to find their way through a very challenging and confusing maze of life.Just as I found in the novels, however, the story is starting to drag. I'm all for twists and turns and these books offer plenty. Too much, in fact. It is beginning to seem like Mr. Patterson either isn't sure how to end the story or is just wanting to keep milking it for as long as he can. My interest is beginning to wane. Also, the amount of time between releases is too much ... I've forgotten important details as this story is taking a few years to unfold.Despite the negative paragraph above, I still recommend these stories - either the original novels or these manga versions. They are exciting and interesting - to young and old alike.

Bought this as one in a series for my granddaughter's birthday. She simply loves these books and they keep her reading over the summer months. A great buy for a great set of books. Great reads for all ages!!!

I've read Patterson's Maximum Ride novel Angel Experiment and all of the Manga's that detail the novel series. I absolutely love this series because it is a sci-fi survivor type story with a normal girl for the main character. My mom, sister and me are just starting the second novel School's Out Forever. We love the characters and their story. We especially like the science/avian experiment and descriptions of New York. I really like the drawings and the whole idea of giving kids wings. There is a constant puzzle to figure out as you read. I like trying to figure it out along the way. Can't wait for the next magna to come out!

My daughter loves this book!

A great manga series based on a book. Each volume is very enjoyable.

My students are actually the ones who read this series and they resoundingly love this entire series. All who have read this have loved it! Good for kids in 3rd grade and up.
