Ã Â Ã Â Ã Â Ã Â Ã Â Ã Â Ã Â Ã Â Ã Â Ã Â Updated glossary at the end of the book gives students immediate access to important terms and definitions.Ã Â Ã Â

I love this book! So much good information! I bought this for school, but I seriously wanted to keep this book just to have it!

One of my favorite text books ever...It is easy to read and yet very informative. I had a fantastic instructor for this course too, but it will forever be one of the only textbooks I ever actually read cover to cover!

Lots of typos and awkward writing. If you’re going to write a textbook about teaching communication, you should make sure you can communicate first.

I use it for a college class and so far its been adequate the page numbers might not correspond to that of the latest edition, yet the content seems to be the same.

The book’s cover is detaching. The front page is also stuck to the cover so that I cannot read the top portion of the inside cover. The text itself is fine from what I have seen, I just wish the book wasn’t falling apart. I’m glad it’s only a rental.

Loved the textbook, wish I had bought instead of rented this time. This was an easy read with tons of helpful resources. Arrived on time and in great condition.

This was the textbook was assigned by my instructor of course I am taking, so I had no choice by to buy or rent it. I haven’t read much of it, but I do appreciate the suggested activities offered.

Had lots of writing and highlighting in the first few chapters which sucked, but the rest of the book was great!
