Synopsis

The world atlas with fresh data of more than 240 countries and areas of the world, with maps of continents, flags and basic maps of all the countries. In this new edition most maps were updated and are more detailed now. Hundreds of hyperlinks for quick navigation in the book, maps of continents specially edited for Kindle, information about people, economics, politics, history, crime and other important characteristics of the countries. All the data are fresh from CIA Factbook, U.S. Department of States and other authoritative sources. This book is a must for anyone who from time to time needs information about a place on Earth.

Customer Reviews

Extremely poor image resolution on Kindle version whether viewed on a Kindle or an iPad; near unusable. The text within some maps is illegible. Highly NOT recommended.

Maps are super pixelated when expanded. this kind of defeats the purpose of an atlas' maps. Oh well. Back to google maps!

Maps virtually unreadable on my Kindle Paperwhite.

Atlases I purchased before contain so many maps, I expected at least maps the country level, showing locations of towns and topography. This book was more like a geographic encyclopedia with good written content.

Because the formatting doesn't allow zooming and the type size etc. is small it's pretty useless.

Wasn't what I wanted

Love this handy atlas but unfortunately not enough big maps of Scotland.

Very informative, good for travel research and general world knowledge
