Customer Reviews

ELIZABETH CARNEY is a writer and editor based in Brooklyn, New York. She specializes in nonfiction children's books and science, math, and STEM-related magazines. Her author credits includeEverything Big Cats,Ã Â Everything Dolphins,Ã Â Great Migrations: Whales, Wildebeests, Butterflies, Elephants, and Other Amazing Animals on the Move, and several titles in the Face to Face and National Geographic Readers series.Elizabeth Carney received the 2005 AAAS Science Journalism Award for science reporting for children. Her titlesÃ Â Face to Face With Cheetahs,Ã Â Face to Face With Gorillas, andÃ Â Great Migrations: Whales, Wildebeests, Butterflies, Elephants, and Other Amazing Animals on the MoveÃ Â appeared on the National Science Teachers Association's Outstanding Science Trade Book list for 2008, 2009, and 2010

respectively.

National Geographic Kids books are great. The illustrations and photographs are amazing and the information they provide is set up in a way that keeps your children engaged and interested. They have small paragraphs and pop out boxes of facts over beautiful photographs and illustrations, instead of just a boring block of text. My girls love them and we have amassed quite a collection.This particular book is about various Frogs that you can find all over the world. They talk about many things including the different colors of the frogs, the different sounds they make, the food they eat, and they talk about frog babies. My 6 year old loves learning the facts and reading the books while my 3 year old loves the pictures (she is a big fan of frogs and all the different colors are very interesting to her).We have purchased many of the National Geographic Kids books for our collection and they are a big hit in our house. There are so many different books with various subjects that will appeal to any kid. These are highly recommended. If you haven’t already, do your kids a favor and start their collection today.

My 2 year old LOVES this entire series of Nat. Geo Readers... I have purchased about 25 different titles, "pre-readers" as well as Level 1 & 2 readers. She loves them all & will ask for certain ones. The "pre-readers" level books are extremely simple & great because she memorizes the words & can "read" it herself. We love the more advanced ones too, because there is more information to talk about. I have learned quite a few facts, myself!) What a great series. The price is reasonable & pictures are great. These are really getting her interested in nature, animals & science... I will continue to buy these as they are released, for our collection!

Love all these National Geographic readers...Level one is great for end of kindergarten and first grade readers..

What a GREAT introduction for kids of all ages to the wonderful world of frogs!

Granddaughter loves it

Granddaughter loves

My boys have loved reading these books!

They shorted me a book.
