Synopsis

Practical, straightforward, and easy to understand, the fifth edition of RESPIRATORY CARE SCIENCES: AN INTEGRATED APPROACH covers the basic mathematical and scientific concepts relevant to the clinical practice of respiratory therapy. This comprehensive book features clear and concise explanations of key physical concepts, along with explicit diagrams that are designed to help readers visualize the material presented. A vast array of updated examples and practice problems with detailed, step by step solutions, foster understanding and assessment of basic scientific theories and help readers avoid common mistakes. With real world examples, new clinical concepts, and coverage consistent with NBRC matrix and AARC guidelines, the fifth edition prepares readers for a successful career in respiratory therapy.

Book Information

Paperback: 752 pages
Publisher: Delmar Cengage Learning; 5 edition (March 10, 2014)
Language: English
ISBN-10: 1133594778
ISBN-13: 978-1133594772
Product Dimensions: 9 x 7.3 x 1.2 inches
Shipping Weight: 2.4 pounds (View shipping rates and policies)

Customer Reviews

"Strength: likes the idea of summarizing the math and science concepts, particularly as a student resource. This book contains good coverage on several topics that confuse respiratory students the most." - Robin Garland, Firelands College, Bowling Green State University, OH"The advantage of our textbook is that it is worth referring back to when students/practitioners need to clarify concepts. " - Ruben Restrepo, University of Texas Health Science Center, San Antonio, TX

William V. Wojciechowski, MS, RRT is an Associate Professor at the University of South Alabama in Mobile, Alabama. He currently serves as Chairman of the Department of Cardiorespiratory Care.
