Synopsis

Learn how to take control of your life by earning passive income and gaining financial freedomQuitting our everyday 9-5 job in search of the real meaning of life is something everyone strives for at some point in their lives. We need more time in the day for family, friends, and sometimes even our own happiness. You could go as far as to try traveling the world on this pursuit and contrary to popular belief this is not selfish, we all deserve the time to be true to ourselves. Realistically unless you were born into a luxurious lifestyle or have received a big inheritance chances are this is not your reality. Whether you like it or not, money is what makes the world go round. Without money you certainly will not be afforded the luxury of traveling or even dinning in some instances. While money does not guarantee happiness it sure does make a lot of things in our lives a little easier. In this book we will explore the possibilities of getting away from your typical 9-5 routine and expand on how passive income can help you achieve a new reality. No more worrying about how you will pay your electricity bill or a car payment. Saving for a childÃ¢â ¬â„¢s education just became a little less stressful. Are you having to think of the possibility of moving a parent to a retirement community? All these things are life and if you are not prepared they can catch you off guard financially. Maybe you want to enjoy life to the fullest, travel and sightsee. Maybe you have wanted to splurge on a new hotrod. Whatever you goal throughout this book you will learn that anything is possible if you put forth the time and effort. We all have to learn somewhere which is why I wrote this book so you can learn how to liberate yourself and live a lifestyle of freedom and happiness. Inside this book you will find What is passive incomeThe different options available to earn passive incomeThe importance of diversifying your income streams and how to do soWhere to start if you’re a newbieHow to make money onlineHow you can make passive income with business models you wouldn’t usually consider as passive via outsourcing & systemsTake action now and download this book to start your journey towards financial freedom today!And why wait? Customer Reviews

This is such a useful and informing book! It provides lots of different ways to get passive income going for you but at the same time doesn't try to kid you into thinking it will be easy! You'll know exactly what it takes to build this kind of income and I think by the end of it, you'd be able to tell if you're prepared and ready to get to work. This one is a book you want to constantly be referring back to. This is really worth recommending to all!

I really loved how informative and easy to read this passive income book was when compared to other books talking about this topic.

The author covered a lot of territory but the biggest drawback is that there wasn't enough information on each individual topic. Excellent information for a beginner in the field of passive income, though, and worth a read or two.

It was a good book but just need an improvement and needs to undergo proof reading. On the other hand it was an informative guide and it can help beginners to know more and learn more on how to have passive income, great advises and tips.

If you ever want from financial freedom, you need to learn this and this book did a great job introducing the reader on different ways to create passive income in your life. Good read.

Definitely, a good read helped me realize the available options out there to make passive income

I am really happy that I bought this book. I am working on a start-up and that is into writing. For me, the idea of start-up came because of the need for passive income. I wracked my brain so many times before starting it as I had several ideas floating around in my head. I wish I had got this book at that time. Through a short, sweet and a well-structured book, Timothy has explained very well some of the simplest options one has, for obtaining a passive income stream. And he doesn't stop there. He also goes about telling how one can not only have a once-in-a-while income, but a consistent flow of passive income so that the person can quit a 9-5 job.

this book is written in a manner in which even those who have never sold anything online (such as myself) can understand how it works. The book addresses fundamental matters, with chapter summaries at the end of each chapter, and deals with all the issues which I could think of relating to selling online, and gives very practical advice.
