Synopsis

Angels of the Appalachians is a fresh and endearing tale, filled with folksy phrases and amusing adages of the South. It’s the story of two women who meet in 1980, gray-haired Erma telling her life story to Annie, a young college student living in Charleston, West Virginia. The tale she tells is also of two women, and their adventures beginning in the coalfields of Red Ash, growing up near Thurmond, and eventually finding their way to Charleston in 1915. Strong mountain women, historical places, faith, and grief are themes explored in this account of a friendship that spans across decades. You will find yourself wishing to call on the fine folks of the Appalachian Mountains, relax for a spell, and stumble upon the angels who made West Virginia so gloriously wild and wonderful.

Thank you for this beautifully written book. ÃƒÂ¢Ã â ¬Ã Å“Angels in AppalachiaÃƒÂ¢Ã â ¬Ã Â• is a touching story that depicting the hardships and trials of wives and families in the Coal Fields of

Appalachia, while weaving together the lives of many individuals from different walks of life and telling their story with humor, sorrow, and reality. This story presents the sacrifices made by the different characters in the story to aid their fellow man, which is so typical of people from that region. Deanna, keep writing as each story gets better and better. I canÃƒÂ¢Ã â ¬Ã â„¢t wait for the next one.

Loved these books. Reminded me of my granddad coming home from the coal mines and the stories about my great-granddad working in the mines when there weren't any health and safety protections. I've know good country people like those in these stories. Whether it's a new baby, someone sick, a death, a house fire or other life events, they were at the door with food or helping to pump out a flooded basement or whatever was needed. As a little girl, I asked my grandma why we were taking a blanket, towels and canned goods to a family, and she said "you have to put hands and feet to your prayers when people are having trouble." As one quote in the book says. "It's not what you have, it's what you give." Hoping for more of these books.

I bought this book for the West Virginia connection. My husband's family is from the Fayette and Raleigh County areas so I was already familiar with Thurmond. His grandfather had worked in the mines and we have many friends who were also miners. The storyline made it clear that while mining is still dangerous, it was much more so at the time the story starts. I really liked the characters - they were very real. The various time periods addressed helped show the continuity of the characters lives. I highly recommend this book.

Angels of the Appalachians by Deanna EdensAnnie lived with ninety-year-old Ida in Charleston, West Virginia while she completed her dissertation on West Virginia history and profiles of the Appalachian people.While delivering a slobbering hound dog to its owner, Annie came to know IdaÃƒÂ¢Ã â ¬Ã â„¢s elderly friend, Erma. As easy-going mountain people do, Erma and Ida loved to reminisce and Annie listened carefully to their stories rich in Appalachian history.ErmaÃƒÂ¢Ã â ¬Ã â„¢s daddy had worked in Red Ash Mine in the community of Red Ash, West Virginia. After the explosion deep in the mine in 1905 her daddy was buried next to her Uncle John.Mine foreman, JR, informed ErmaÃƒÂ¢Ã â ¬Ã â„¢s mamma they couldnÃƒÂ¢Ã â ¬Ã â„¢t live in the company camp housing unless she allowed little Erma to work in the mine since her husband couldnÃƒÂ¢Ã â ¬Ã â„¢t anymore. Mamma and Erma (carrying her little brother) walked miles to Mrs. JonesÃƒÂ¢Ã â ¬Ã â„¢ home for widows who needed a fresh start. Erma began a

life-long friendship with another young resident, who remained her closest friend, Ida.Erma and Ida learned self-confidence as Mrs. Jones gave them encouraging compliments, exposed them to new adventures, and allowed them the freedom to grow into mature young ladies.Ida and Erma are excellent sources for Annie to record the history of areas in Appalachia because they lived it.Edens paints a rich picture of the way it used to be.

A very enjoyable heartwarming story about life & living - with reminders of who we should live like.Well written story & I did receive a few chuckles or true laughing out loud (LOL) at the jokes the old man told to the younger woman.

Angels of the Appalachiansby Deanna Edens (Goodreads Author)F 50x66Linda Husvar's review Dec 10, 2016 Ãƒâ Ã Â editit was amazingRead from November 26 to December 04, 2016This story about two young girls who made "pinky vows" in the 1900's showed us a life-long commitment to pursue their goals together. I loved their determination to move from rural life to productive work in the city. I also loved how Mrs. Jones used her farm to help mountain people escape coal mine life. Erma and Ida were very believable, and I am anxious to read the back-stories in "Erma's Attic."

I enjoy reading a story that tells a tail of someone's life. This is a good example of that kind of story. No complications just a simple story of someone's journey in life with the added bonus of friendship and love. Sometimes this is the

Going Home before it was Home. When my family moved to South Charleston from Huntington I attended Morris Harvey College, now known as Charleston University, which was held in the library. This was in 1944 or 1945. My husband worked in the Diamond Dept. Store in the carpet dept. All the different streets and locations were there as I remember ed. Luna park was gone and walks were installed down by the river. I'm now 90 years old but these memories have given my heart a real boost. Ms. Edens has become a new best writer for m e Thanks.
