The Bad: I am a music instructor and try and avoid using TAB with beginners. I try and get them to use the black dots...so, as this book contains TAB I would only use it with experienced students or adults who want to work on melody. Thus, the 3 star rating because I can't use it for everybody I teach.The Good: The songs are cool! It is a good supplement to the Ukulele Book 1 so if you are purchasing that book, this is a good add on to your purchase. If you are a TAB reader, it is fine.

I'm a beginner uke player. Some of these songs are easy for me, but others provide a good stretch. However the kindle format means you have to turn pages to play the entire piece. You can make the image larger, but that cuts off part of the page. I suggest buying the book. I do love the Hal Leonard Fast Track books for uke and harmonica. I'm going to order this one in paper.

I bought this songbook for my beginning Ukulele students. I love the tabulature in addition to the notes. It’s a perfect way to learn the fingerings while learning to read the music, words, & chords. The songs are all familiar. I think it is a good supplement to any instruction books.

Great little book that is loaded with songs that are fun to play on my Ukulele.

Exactly as described.

If you want to learn Ukulele this is the must have easy to follow along with. GET THIS BOOK If you are serious about learning.
