Hajime Isayama first published Attack on Titan in Bessatsu ShÃ…Â•nen Magazine in 2009. It became a sleeper hit and won the Kodansha Manga Award in shÃ…Â•nen category in 2011. This is his first manga.

My son loves this book..

works great

Great!

thanks

I’ve seen the anime attack on titan, and the manga might be even better! It’s overall easier to understand, due to the anime not including every detail. If you have not read the other attack on titan books, I recommend reading 1 and 2 in a row because they go well together. Book 5 still is my favorite, but the plot is tied together through all the books so it will only make sense if you read from the very begining

Grandson loves

great book

This just gets better and better...But sometimes, I wonder where this is all going. The cast of characters at this point is now huge and the story now raises more questions than it gives answers which is on the brink of becoming a little convoluted...But it is such a treat to read each volume...Can’t stop voraciously reading it! I have to fight with my kids to see who’s gonna get to read it first...
