Synopsis

Complete with full-color illustrations, maps, charts, and artifacts, the definitive, essential companion to the DoctorÃ¢â ¬â„¢s worldÃ¢â ¬â •and many more.Doctor Who: The Whoniverse is a never-before-seen history of the Human RaceÃ¢â ¬â •from the formation of the Earth around the Racnoss eggs, and the creation of life by the destruction of the last Jagaroth spaceship, through to the eventual expansion of the sun and end of the world and beyond to the New Earth, and Utopia.Along the way, the book explores the untold histories of other planets and other lifeforms as they have interacted with humanity. We examine the Daleks and Cybermen, the Time Lords and the Sontarans, the Ice Warriors, Silurians, Weeping Angels, and many, many more. Additionally, we visit Gallifrey and Skaro, Mondas and Telos, Mars and Sontar. Filled with full-color illustrations, maps, charts, and artifacts throughout, Doctor Who: The Whoniverse is a treasury of accumulated knowledge, scholarly erudition and accumulated folk wisdom from the worlds of Doctor Who.Doctor Who: The Whoniverse explores:Early HistoryÃ¢â ¬â •From 10,000 BC and the discovery of the secret of fire, through the Roman Empire;GallifreyÃ¢â ¬â •The rise of the Time Lords;The UNIT EraÃ¢â ¬â •Earth under attack from alien invasions;The CyberwarsÃ¢â ¬â •The Wheel in Space and Revenge of the Cybermen;EarthÃ¢â ¬â„¢s Galactic EmpireÃ¢â ¬â •Starting in present day through the rise of EarthÃ¢â ¬â„¢s Empire as seen in Frontier in Space;And much more!

Customer Reviews

The origins of reality, of space and time, are shrouded in mystery.Ã Â They have been hotly

debated for millions of years in millions of worlds. This is the story of how it all began. And what happened nextÃ¢â ¬Â¦

Justin Richards has written for stage and screen as well as novels and graphic novels. He writes extensively for children and has also co-authored several action thrillers for young adults with the acknowledged master of the genre, Jack Higgins. The first two novels in his adult science fiction Never War series, The Suicide Exhibition and The Blood Red City, were published in 2013 and 2014, respectively. Justin acts as creative consultant to BBC Books' Doctor Who titles, and he has penned quite a few himself. Married with two children (both boys), Justin lives and works in Warwick, England, within sight of one of Britain's bestpreserved castles.

Doctor Who: The Whoniverse: The Untold History of Space and Time is simply fantastic! I had pre-ordered the book and received it right on the day it was released. I have devoured parts of the book already and my inner geek loves it!You know how some companion books are simply a rehash of old materials? Sometimes it doesnÃƒÂ¢Ã â ¬Ã â„¢t seem worth it to buy a new book just for a new cover and a different arrangement of information from past books. Well, let me tell you that this one is different.First, the illustrations are beautiful and the book itself is well made. Instead of plain white, the pages are colored to give it an aged look. The book is organized into seven chapters: the early universe, the birth of knowledge, the age of expansion, the rise of the cybermen, the age of empire, the time of the daleks, and the end of time.It certainly is one of the most interesting history books IÃƒÂ¢Ã â ¬Ã â„¢ve had the pleasure of reading. Any Doctor Who fan would love it.

A nice plot continuity for the series, but less encyclopedic than I hoped. A good outline for the true fan, with a few nice graphics, but was underwhelmed by the whole package.

An excellent and beautifully illustrated book. A must for any true Doctor Who fan. Commentary and story lines are well thought out and presented. Overall a high quality book with quality print and pages. You cannot go wrong by adding this book to your collection. A fantastic book that can be appreciated by both Doctor Who and sci-fi/fantasy readers/collectors. By far one of my favorite Doctor Who purchases.

not quite what I expected, but still a beautiful book with a lot of interesting details.

Purchased as a gift for a Dr. Who nut. He’s really enjoying the book. Very nice.

Nice intro to the Doctor Who universe. Nice production value.

What do you buy your wife who hates to read but has many questions about the Doctor? Well this may not have been the answer (remember she hates to read) but she loved it just the same and spent several days looking through it. I enjoyed though.

Super cheap compared to the book stores, glad I looked. I bought it for my fiance for Christmas and it looks incredible on our bookshelf.
