Customer Reviews

Frank Ayres Jr., PhD, was a professor and a department head at Dickinson College in Carlisle, Pennsylvania. Elliott Mendelson, PhD, is a professor of mathematics at Queens College in New York City.

good shape. Arrived on time. I love this brand of learning books. I have ordered many times.

This is the perfect complement to any recommended calculus book because of the amount of solved problems. As well, it has many proposed problems with results, so you can practice and verify your own results.

paper quality is extremely poor. It is hard to read this book, The problems are dull and not organized well.

I like it.

Great help

Awesome practice problems for calculus students. There are a number of problems worked out which are very helpful

Excellent, like all Schaumburg outline books in math. Many solved problems.

Good product
