Customer Reviews

Purchased for a literature course and ended up keeping it in my personal collection because of the great children's stories in the book.

The book itself is alright. I did not find it particularly insightful, but it wasn't particularly bad either.However, it was required for a class I was taking and I got it here for about $14, which beats the $140 I would have had to pay in the college store.Therefore, 5 Stars!

Exactly what I needed for my class!

Came in great time and well kept.

One would be hard-pressed to find a book with a larger selection of fundamental stories from across the world. This book includes so many quintessential stories, fables, and poems. It is my go-to resource for classroom stories.

Great condition!

Met my expectations very well. It is a comprehensive book of children's literature from nursery rhymes to young adult fiction, with commentary on the history and authors who had greatest influence in this area of literature.

LOVE this book. The condition was great.
