Wonderful book, each page talks about a moral or trait that goes with each letter of the alphabet. It engages the child with questions about God, themselves, and the pictures of the books. My 4 year old loves this one! It was a gift when my daughter was born so it sat on the shelf for a while but now it's kept on the nightstand it's so popular. I have started buying it for family and friends for showers and birthdays!

This book is timeless. A perfect baby gift. The child will really use it as they get older. Illustrations are colorful and have children in all the pages. There is a 1 minute story on each page. Questions for the parent to ask, and the child to answer about each photo. The author has also placed

ladybugs on each page for the child to find. A great interactive book. Questions about JEsus and God. Right and wrong. If you want your child to show love to others as Jesus commanded us in the New Testament, a wonderful book. I cannot find it in the Christian bookstores but has it. The author, Kenneth Taylor is deceased. I read this book to my children 30 years ago and it is still in print, with updated illustrations. I buy this book in quantities of 10. Love it.

I love this little book. The illustrations are very cute! My son and I have been reading one page a day and having wonderful discussions about the mini character lessons. (Age 3) I would def. purchase this book again!

The content is okay for the most part, but it tends towards legalism/moral behavior and doesn't point children to their need for Jesus and the truth of the gospel as much as I'd hoped. As a parent, it means additional comments and tie-ins of other Scriptures to help along the messages when they seem to focus so much on behavior instead of helping us to draw out heart issues.

I've been looking for a good, simple, clear devotional book to start reading to my toddler. Most of what is out there is written for preschool/school-age children. This book is so concise and my daughter really seemed to get it. She also loved the illustrations, which opened a door for us to talk about what was going on on the page. The "big thoughts" are beautifully written and presented in a way for young kids to understand and get into their hearts.

I was given this book as a gift for my daughter when she was born, she is now 4 1/2 and this is still one of her favorite books! We read it each day as a devotional and then search for the lady bugs in the pictures. This book uses the alphabet to teach children truths along with questions that pertain to the pictures to help them interact and learn about the lesson. When my daughter got old enough to write we started a little journal to go along with it where she practices writing the letter for that day that we read "A is for Ask..." she'd practice writing A and then I'd write out the verse they give with each lesson, then she traces the verse, then we'd draw pictures that go with the lesson. My son who is now 2 also loves this book! He learned quickly and pretty young to find the ladybugs in the pictures and answering the questions about the pictures that pertain to the lesson, I think cause of watching and listening to my daughter. Highly reccomend this book! I gift it to all new mom's I know now too!

This book was based on a recommendation and originally I thought, "ugh, ANOTHER ABC book". This book is so much more, though! It incorporates Christian values, scripture, and asks some great questions to enhance learning. Love it!

Perfect book for my 3 year old granddaughter.
