Customer Reviews

Eric Carle, the creator of The Very Hungry Caterpillar, is unquestionably one of the greatest children’s book artists of all time. He continues to produce his best-selling picture books, and recently won the Laura Ingalls Wilder Award for lifetime achievement in children’s literature. His books, as well as the Eric Carle Museum of Picture Book Art in Amherst, Massachusetts, continue to keep him at top momentum.

This is one of the better ABC books out there. I only wish there weren’t is much white space in the background of the pages. It just has the letters and a drawing of something starting with that letter. Many of his other books fill in the background with color (like Little Cloud), and I wish this one did the same. It’s still a great book though.

This is a really cute ABC book. Each letter is represented by an animal, so if your kid likes animals and/or Eric Carle, they’ll love this book!

I really like that each letter is on its own page and that there's an animal corresponding to each letter. We have fun sounding out the letter, talking about the animals, and going over colors. This book is the perfect size for a toddler to hold. I love the distinctive illustrations in Eric Carle's books!

She loves the very hungry caterpillar story so I bought this book. The drawing was very colorful and the animal was very rare. Good to know more animals that's not in the Zoo.

My three year old daughter loves The Very Hungry Caterpillar, so this book was perfect for her! The only problem is that a couple of the animals in the book are a little obscure.

You can't go wrong with Eric Carle. Grandkids LOVE this book.

I bought this for my granddaughter's personal library. This is a great book that teaches your little ones their ABCs in a fun and interesting format. The colors are bright and vibrant and will grab their attention. There is no story with this, it's just the letters and associated words that start with that letter. But I knew that going in. It's an awesome book.

Great for toddlers
