Synopsis

Aari has returned! Now he and his lifemate, the brave and beautiful Acorna, can finish rebuilding their once-decimated homeworld. Yet Aari's travels through time have left him oddly changed, and he barely remembers Acorna or their love. And as Aari's actions turn more sinister, Acorna must shift her attention to stopping the destruction of innocents by a vicious criminal. It is precisely the sort of weakness and confusion the dreaded Khleevi have been hoping for, as the brutal insectile oppressors set in motion their final invasion and the total destruction of the Linyaari and the conquest of their world. Though Acorna's heart is wounded, her courage and determination must remain strong in this dark time -- for only then will she be able to rescue the Aari she knows and adores, and halt the bloodthirsty alien menace for good and for all. --This text refers to an out of print or unavailable edition of this title.

More episodic than its predecessors, McCaffrey and Scarborough's finale to the charming Acorna saga will please the two authors' many fans and lovers of horses and cats generally. Last seen in Acorna's Rebels (2003), the unicorn girl has finally located her missing life-mate, Aari, though his exile in time has resulted in a disturbing personality change. Besides helping Aari to recover, Acorna must retrieve a hoard of jewels-chrysoberyls used in terraforming, stolen by a troupe of dancing girls with anti-gravity belts-from three races of sulfur-based beings, the Liquids, Solids and Mutables. She must also contend with the return of the Khleevi, disgusting insectoid aliens with evil designs on Acorna's home planet. And of course there is Grimalkin, the felinoid shape-changer, whose antics

delay the well-deserved happy ending after all the bopping back and forth through time, across space and in flight from the Khleevi. While this light SF/fantasy romp is a hopeless proposition for newcomers to Acorna's travels, it serves as a fitting coda to the series. Both Acorna and Aari and their creators can ride off into the starlight with clear consciences. Copyright Ã Â© Reed Business Information, a division of Reed Elsevier Inc. This coda to McCaffrey's popular series packs plenty of action into 320 pages. Although Acorna has found her people, defeated their enemies, and, with the aid of friends of various species, is helping to restore her ancestral planet, something is wrong with Aari, her newly found lifemate. He barely remembers her, and the past interests him more than the present. But then the chrysoberyls--gems used in terraforming--are stolen, and they must be retrieved from the planet of sulphur beings. And then the insectoid Khleevi turn up, still out for everything they can grab. Acorna has to keep watch over the timestream machines of the Ancestors, especially since they can constitute a true menace, even in the hands of those with good intentions. McCaffrey and Scarborough have each written more serious books than this light space opera, but lack of seriousness will hardly prevent fans of the Acorna series from enjoying its conclusion. More adventures of acorna the unicorn girl. A unique series that captures my attention from cover to cover. Sure to captivate and entertain. Talented authors produced another masterful manuscript.

I had read these but a friend of my step-daughter came over and had read only the first one so I bought the set for her to enjoy.

Finally, all the story lines wrap up in a satisfying way. Good job! (I'm an adult reader.)

Another McCaffrey/Scarborough collaboration and success. I have never been disappointed by any book either has written, and working together they provide the best.

Even though this series isn't my fave (PERN series is the best of course!) I do like how both the

authors meld the stories so well together - really miss McCAffrey’s passing away in 2011.

AWESOME!!!!!

excellent service. needed this book to complete my collection.I have all of her other books and enjoy re-reading them.
