Customer Reviews

This books is great!! It really helps you to understand your spouse!!! Every couple should read this book, you don’t start working on your relationship when there is a problem you keep working at it everyday to keep away those problems!

Some of the author’s analogies are a bit simplistic, but they are effective nonetheless. Reading this book with my spouse has injected new perspective into our 20 year relationship, and we are better off for it!

Its language is clear and concise, which makes it enjoyable. The author efforts to make it understandable for all audiences complements very well with its examples. Books that have assigments are not my favorites but I believe if a couple in trouble decides to answer the questions

at the end of every chapter they will be able to understand each other in a deeper lever.

This book is one that as I've discussed it with friends they wanted to know the title of a book that could offer so much wisdom and seem to speak instinctively to what their emotional needs are, plus unwind the mystery of what their husbands so clearly need. I've found a lot of wisdom in this book and find myself underlining and highlighting while saying, "This makes SO much sense!"Harley speaks in a straight-forward, logical manner about a subject which is usually driven by emotion. He makes it easily understandable and the included index provides valuable tools. It's easy for both husbands and wives to go through and has questions at the end of each chapter that spurs honest conversation.

Good book and certainly is something both men and women would benefit from reading. Most of the matter is common sense but having someone spell it out certainly reinforces it. I got the audio version and listened to most of the book. I didn't think the reader was the best fit.....his talking stye bugged me a little.

This is a great book that is essential for every married couple. This book was wrote awhile ago so the tone is kind of off putting for females in my opinion but the content is great. It truly lays out the differences between a husband and a wife and how to overcome and embrace those differences and the conflicts they can create. It teaches a couple how to meet the needs of their spouse and thus how to create a fulfilling marriage for both partners.

Decent book in some ways but makes bold statements about how people feel that may be more in the set of unhappily married people than those that are happy. He points out people are different in the beginning and the end but the rest of the book just goes as if they all had generally similar feelings. And some of his questions "do you feel happy or unhappy" address things that are not the basis of happiness. Again perhaps those struggling in marriage relate to this better.

Dr Harley is a man of immense experience and candid understanding, who offers us some profound, yet simple emotional solutions. His book proffers practical scenarios to demonstrate typical causes of infidelity. The reader begins to realise how human we really are, and how simple some of the solutions need to be to strengthen one's marriage. I loved the audio version, as I was able to listen to it in the car and make good use of my time. I cannot recommend this book highly

enough!
