Customer Reviews

I paid for the ebook so I will give an honest review.The biggest problem is that the book is not properly formatted on my Kindle so I am missing half of the instructions on the recipes. This itself makes the book basically worthless. It also makes me wonder if the other reviews even read or tried the recipes.The recipes are standard rice cooker recipes. Nothing spectacular or impressive. Some are a bit wierd and sound horrible but I have not actually tasted them to say for sure. Maybe if there were readable instructions I would not be so harsh about the recipes.What is do like about the ebook, and is the only thing deserving of the 1 star, is the introduction and information at the beginning. I really liked reading about the rice cooker and the various settings.Until the formatting is fixed I do NOT recommend this ebook. If it gets fixed I will re-evaluate the book and adjust my review.

Great book. Great recipes. Glad I added it to my collection. :)

I was sent this book to consider for reviewing on my food blog. If you are looking for more ways to use your Rice Cooker, or if you're a college student with only this piece of equipment to make a meal, you'll be delighted with all these amazing recipes and ideas for meals that can be cooked with just a rice cooker. I would like to have seen some of the spice blends identified, but you can buy the blend online. I love my rice cooker, and I can't wait to try out some of these exotic recipes from all over the world. I highly recommend this book for those who want to learn to use a rice cooker or for those who want to expand its use in the kitchen.

Personally, I did not like nor enjoyed cooking. I got a rice cooker as a present did not how to use it but with digital rice cooker guide and recipe book I have learned and cooking is being easier and somehow enjoyable. It not only show me how to cook in a slow cooker but how to properly use it. I would not imagine cooking desserts on a rice cooker but they come out delicious the banana pudding with caramel sauce is one of my favorites. I have cooked from plain white rice, steam fish, rice and chicken and even breakfast. This digital book has changed my perception of cooking. Love it.

Very happy with it so far. Many interesting recipes. Looking forward to trying them with my kids.

This cookbook is easily one of the best I've had the chance to read. I have the digital version but am

really considering buying a physical copy due to the quality of the cookbook

This is an amazing cookbook! Rice is one of my family's favorite foods. I am always looking for new ways to prepare it. The variety in this cookbook is outstanding!!

Amazing and delicious recipes! the investment was really worth it!!! you should try it out :-)
