Synopsis

Ã¢Å“â •Colored Illustrations, this book is the same as the (Muscular System Coloring Book: Now you can learn and master the muscular system with ease while having fun) but the difference is it as interior colored illustrations like what you see on the back pages of both booksÃ¢Å“â •Master the muscular system, benefit from realistic medical anatomy illustrations that will help you master the muscular system with effortlessness while you’re having fun coloring the different detailed muscles of the body and then comparing them with a labeled version; which you can also color.
Ã¢Å“â •Human Anatomy & Physiology Coloring, having a better understanding and learning the muscular system in detail can be achieved through coloring, coloring will improve your studying ability and help increase your reference recall by fixating the anatomical images in your mind for easy visual recall later on just from the simple physical activity of coloring.Ã¢Å“â •Activity process , the hold activity process of coloring is intended to imprint on your memory the different shapes and location of each muscles, which will help you to visually recall later the different shapes and location of each muscle, biology.Ã¢Å“â •Interactive approach , so instead of hours and hours and hours of memorization, the muscular system coloring book will help you learn through an interactive approach.Table of Contents1.ANTERIOR MUSCLE UNLABEL 2. Customer Reviews

I have purchase this coloring book prior to the recent upgrade for my family and friends and in my opinion the author as done a great job of improving:ÃƒÂ¢Ã â ¬Ã Â¢ The outline of the illustrations they are a lot darker; which is one of the complains hereÃƒÂ¢Ã â ¬Ã Â¢ Removed a lot of the illustrations the might appear confusingÃƒÂ¢Ã â ¬Ã Â¢ Simplify the remaining illustrations i.e. unlabeled, labeled and added a colored illustration as an example of what the once you’re going to color should look likeOverall the upgrade is a great improvement for a coloring book that will help you learn the muscular system.

great for all

This is really a good book. The only downside it that some words are misspelled. If you purchase the book that is labeled "updated for 2016", look out for that.
