Customer Reviews

Interesting! Polish is an interesting language and one that really got me curious. I decided to download this book and learn what I can. Although I may not get the chance to use it, it's still interesting and this book made things relatively easier for me! This is really worth recommending book!

excellent phrase book and key words book to get started

At this price point, you might expect a 116 page book to be packed with details and phrases. Instead this book has a very large font, lots of white space, and almost no useful content. It primarily contains translations of basic phrases and contains almost no teaching of grammatical rules as it sells itself in the description. More importantly, it will do almost nothing to help speaking. In the pronunciation section, it gives a few examples of sounds in English, these are fairly basic. But for a large amount of the sounds it simply describes that there is no English equivalent and it's best to hear it spoken; completely unacceptable for a book proclaiming to teach Polish!
