Synopsis

Identify all the animals, using your smart phone or tablet.Most of us, on our first or even second safari, struggle to identify all the animals. The Tanzania Animal Checker gives you, on your tablet or smart phone, all the animals you might encounter on safari. Each species has a colour photo, a simple description relating to its size and weight, together with information and details about the animalÃ¢â ¬â„¢s habits - all you need for quick identification during your game drive.Download before your safari begins, at the airport, or wherever you have wi-fi, but certainly before you go into the bush, where broadband speeds may be slow.
