This is a helpful series for improving vocabulary. The range of books by levels allows you to select the proper level for the student, without relying solely on their age or grade.For best benefit, it is necessary to do the rote work (in some student’s minds - others find it fun). It is well worth the time spent doing it. We prefer the books, but now their is also an online version.Quality educational materials that I would recommend, either as a supplement to school or as curriculum for homeschooling.

I’ve been using Wordly Wise for my homeschooled children for years and find it unparalleled in preparing them for both the SAT/ACT and life with an extensive vocabulary. This is definitely the "old" way of doing things...the words are challenging, sometimes obscure, and the program exposes them to words often found only in books these days. Fabulous!

Love these books. Shipped very quickly! Great way of teaching vocabulary and it stickes for the kids! Love it.

Great! As expected.

The book was written in a little bit, but in good condition.

:)

school book

I use it by myself to sutdy English new vocabularies and soemtime use some good words learned from it book to wirte a good paper.
