My husband and I regularly have to make trips into Kansas City. Paper maps not only are difficult to manipulate, but are also a pain to refold.This has been the perfect solution for us. I combine it with our GPS, and it gives the overview that is missing from just following the directions. It shows malls, hospitals, colleges, stadiums, and major tourist attractions.It shows enough area "outside of the KC City limits" that we can decide in advance which way is best, and can make decisions about other stops. Highly recommended by someone who doesn’t live in Kansas City.I purchased mine locally, so look around before you buy.
