Customer Reviews

While this is book 6 in a series, you could start here without being lost, but I would recommend starting with book 1.I enjoyed the return to the Alpha Girl world and spending more time with Meredith. She is one extremely competent 18 year old girl, almost unbelievable so if she hadn't been training since the time she was very young. I liked seeing her confidently jump into her role as Donovan mate and not shy away from tough situations and not letting him Alpha her into being protected all the time.I found the focus on the Ireland pack with some Fae information to be a nice change and interesting.What did give me some pause and led to the four start rating was Donovan. While it was great to see more of him, and his relationship with Meredith was wonderful, he frankly seemed to suck as a leader. An explanation was given but it was hard to swallow that the 18 year old Meredith had a better grasp of the situation and realities then he did. I understand self-denial can get to us all, but it wasn't what I would expect from someone in the seven. I would have liked for there have been a way for Meredith to show her knowledge and usefulness as a mate without knocking Donovan down in my eyes. Hopefully with the conclusion of this book he will redeemed in future books.

I waited for a while for this book to be released and was excited to catch up with the characters of the series only to realize that this book is truly Meredith and Donovan's story as the two travel to Ireland to Donovan's pack. Once there, the couple faces multiple problems. There are some plot twists and turns, some are predictable and others not so much. Ultimately, I really wanted to like this book more than did in the end. There is a bit of repetition with some of the inner dialogue, and at times the flow of the book felt rushed as some scenes felt glossed over. I guess, for me, it came down to Donovan's character, who appears to have gone from this super, awesome, alpha to a male lacking in character.I did however, like catching up with the characters and I liked that Meredith is coming into here own. In the end, these are my personal thoughts and I'm definitely not in the majority as Shattered Pack is not my favorite book in the series. I am looking forward to book 7 and catching up with Tessa.

Since I first read book one, I was hooked on the series. I loved everyone storylines so far and hope

more is to come, when I can’t wait for book seven ÃƒÂ Ã Å¸Ã ËœÃ â ¬. I give this book 5 starts and its a must read for anyone who loves paranormal romance.

I’ve been a reader of this series since the beginning and I still get excited each time the next release hits my Kindle. Shattered Pack is another enjoyable, exciting chapter in this consistently good series. My only complaint is that now I am probably going to have to start the entire series from the beginning (again) because reading a little piece of it always makes me want to stay immersed in the rich world the author has created.

The characters and story line of this series is very good! I didn’t think I would like it at first, but caught up in it. I am amazed at the wonderful imagination of this author. She is a wonderful writer.

I honestly wish it was longer but it could just be because i love this series anx i always hate waiting so long for the next one. I honestly forgot about the series until i popped up on kindle new releases. Still this author never fails to keeps me emmersed in this world she created with these characters. I always give the books 5 stars when its a book i can really dissappear into and i find myself wanting to read all of the books again and again..

Every book in this series that I pick up gets devoured in a few hours. I read these books like I’m running out of oxygen. I can always tell I am in love because I scan ahead to see what happens next, then I have to force myself to slow down and go back to the beginning of the page. I will read everything this author writes. Thank you!

Loved this most recent addition to one of my all-time favorite series. Enjoyed getting out of the states to experience the Irish pack. Looking forward to book 7!
