Synopsis

THE ELEMENTS OF REASONING is a concise and lucid introduction to the basic elements of argumentative prose and the conceptual tools necessary to understand, analyze, criticize, and construct arguments. This text is not only perfect for a college course in argument analysis, but also as a reference tool when confronted with arguments outside the classroom experience. While THE ELEMENTS OF REASONING covers the standard formal tools of introductory logic, its emphasis is on practical applications to the kinds of arguments students most often encounter.

Book Information

Paperback: 256 pages

Publisher: Wadsworth Publishing; 6 edition (January 1, 2011)

Language: English

ISBN-10: 0495809187

Customer Reviews

"I would adopt this textbook in a heartbeat for a class on critical thinking. I am impressed with how much is accomplished in a slim volume. The clarity of writing is one of the great strengths of this text."-- Elizabeth Meade , Cedar Crest College"As a foundational guide to reasoning, Munson and Black’s effort in this edition is commendable - well organized, filled with timely examples, and weighted with the clearest and most substantive content that I have seen in such a textbook."-- Jason Black , University of Alabama

Ronald Munson is Professor of Philosophy of Science and Medicine at the University of Missouri-St. Louis and a nationally acclaimed bioethicist. After receiving his Ph.D. from Columbia University, he was a Postdoctoral Fellow in Biology at Harvard University and a Visiting Fellow at the Harvard Medical School. Munson has served as a bioethicist for the National Eye Institute and the National Cancer Institute, as an editor for the AMERICAN JOURANAL OF SURGERY, and as a member of

the Washington University Human Studies Committee. Munson's other books include RAISING THE DEAD: ORGAN TRANSPLANTS, ETHICS, AND SOCIETY, THE WOMAN WHO DECIDED TO DIE: CHALLENGES AND CHOICES AT THE EDGES OF MEDICINE, REASONING IN MEDICINE, and ELEMENTS OF REASONING, 7e (with Andrew Black). He is also the author of the novels NOTHING HUMAN, FAN MAIL, NIGHT VISION, and THE HARVARD GAME.Andrew Black was educated at University College, London, and University of Massachusetts, Amherst, from which he received his Ph.D. He taught at Dartmouth College and Southern Illinois University, Carbondale, and is currently Teaching Professor at University of Missouri-St. Louis, where he has taught since 1999. He has published in the areas of history of philosophy and epistemology and is the writer and presenter of the educational television series Great Philosophers.

I personally found this book easier to understand than the class I took with the book. Using this book was most likely the only reason I passed.

As required for class

This book is very helpful for writing essays, or learning more about grammar. It was required for a class, and I kept it.

Its just another text book. Not particularly interesting to read.

Item as described.

Great Value

This book is a good quality. There are only a few markings in the first few chapters. This book is easy to study from.

Item as described. Quick shipping.
