Lisa Densmore, who has been hiking the Green Mountains for more than thirty years, is the Emmy-winning host of Wildlife Journal (PBS) and a writer and nature photographer whose work has appeared in Backpacker, Her Sports, Vermont Life, and Vermont Magazine.

The selection of trails is nicely varied, both in scenery and difficulty. But, like all books of this

general type, too must attention is paid to the high peaks region, while trails in the southern half of the Daks, which is the better commute for most people, are lacking. The addition of GPS data is a good help in locationg the trail heads, as that is often the hardest part of the trip.

Bought this for my son and his family -- kids age 6 and 4. They liked the reviews that mentioned whether the trail was dog-friendly as they like to hike with their lab. They have hiked several of the trails in the book and have found the reviews to be very helpful and accurate.

Hikes are on the easy side. Use of coordinates to locate them with GPS is best

Handy little book, very useful to determine what kind of hike you are up for depending on whether you are taking kids and/or dogs. Small enough to carry with you too!

Just what I was looking for.

Looks like a comprehensive view of the easier hikes in the Adirondacks. I like this series!

good shape

Great format-summarizes the hikes at the end of each description. This makes it so easy to check your route. Some lovely photo ops on these trails. I hope I get the good weather for pics!
