Synopsis

Whatever happened to Western civilization? Somehow, Christians have lost ground in every cultural area of leadership and influence in Europe and America since 1700. This is an indubitable fact. The remaining Christians search for an explanation. They want to know how it happened. This is the story of the decline and fall of Western civilization. It is the story of uncommonly powerful men, unfathomably evil men& apostates. Reader beware! This book faces head-on the spiritual forces that leveled a full-out attack on the Christian faith in the Western world. On the one hand, it is a story of demonic possession, insanity, suicide, mass-murder, adultery, homosexuality, cultural and social revolutions, and unbridled, maniacalÃ Â apostasy. It is the story of apostasy on a massive scale. But it is also a story of hope and victory for the last men standing in the ashesÃ Â of Western civilization. It will be a testimony to the inevitable triumph of Jesus Christ over the great men of renown who picked the wrong fight in the history of the West.

Should be required reading in every school in America, but the secular humanists who have destroyed the West would NEVER EVERallow that. Christianity, which built the greatest civilization man has ever seen, Western Civilization, has been abandoned.The result of that and the rise of secular humanism is responsible for the descent into depravity and insanity that we are allwitness to, especially here in America. There is probably no coming back from where we are today, short of a miracle of God,and why would He waste miracles on reprobates? A contradiction to begin with. Fasten your seatbelts, because things are going toget even uglier before the good Lord finishes this disaster off.

The book, though well written, was a scathing review of many of the humanistic thinkers of the West. It did show a progression in thought of the dismantling of the Christian West. T. E. Lawrence (of Arabia) may have described what ailed the West. In his book "Seven Pillars of Wisdom," in Chapter III, Lawrence writes, "They (the Arabs) were a people of primary colours, or rather of black and white, who saw the world always in contour. They were a dogmatic people, despising doubt, our modern crown of thorns." The West's tendency to be self-examining is the key in its undoing and Swanson brings this out. The question for us should be, where is the crossover line from being just self examining and skeptical to being outright nihilistic? The humanist thinkers pushed the West toward this outcome. The scientific and Industrial Revolutions aided us in our calculating, "left brain" thinking and our philosophers followers suit, producing a progression from dismantling of the deified position of God to having mankind "deified," not a pretty thought.

Absolutely brilliant. This book explains everything you need to know about how we got into the state we are in. It is well written and in many ways takes advantage of the fact that you know much of what is discussed already but have probably not contemplated it in the manner presented. You can not view "great" literature in the same light anymore nor can "great" philosophers be separated from the consequences of their ideas. The writer is unapologetic in his approach and quite aggressively

asserts that these great men of learning are indeed the false prophets and false teachers that the Bible warns us of. He does, however, end with a plan of action and quite a bit more optimism than is deserved. I see what he has written more as furthering the scholarship on end-times apostasy and eschatology...and the inevitable...Poinium Cherem...

Even though I love to read books, and especially historic or 'old' books, I had never wanted to read Huckleberry Finn. Honestly, it sounds like a kiddy book. Now, I can see what impact even a book with such an uninteresting title (prickly, bitter berry-covered fish?) has."Ideas have consequences," but the price may be paid by generations after the originators have passed on.Christians who truly care about their children and nation being Christian will appreciate the analysis and background information on literature that has been required reading for three generations. As a young person I appreciate hearing what has influenced the culture around me. "We must know our history or we will be destined to repeat it." But the author exudes a hopeful outlook and proclaims good news for the future. And there will be good news in the future if people like me will read and take heed, train up our own children to be faithful and wise with a bedrock fear of God, and trust in God's sovereignty as the Orchestrator of history.

Thank you Kevin for the thorough history lesson and accounting of the infection that has ravaged our country and the entire western world.To see the systematic attack on God and His Word by very influential men and women helps us now to identify it and fight it where we can and as much as we can until His return.To God be the glory!
