Customer Reviews

this is an okay book, if you are able to turn pages on your own. I am a quadriplegic and it is difficult

to turn pages with a paperback book, but for someone who has use of their hands and arms. No problem, I feel that the book is a great book for anyone who has use of their arms.Joe Ray

This book is SO helpful for my medical office.

This is the book I was in need of all class. Although I managed without the book for all but 2 weeks, once I did receive it, everything my professor had instructed us on, made sense.

I bought this book for my class. It helped me out a lot. The book was easy to read and understand

This was used for my program and it helped alot to understand all the codes

Fast delivery. Great price and quality!

was helpful for doing my coding homework.

In excellent conditions! Great buy!
