I have read this book one more time. This book is about crystal healing . There are a lot of different ways to utilize them .This book is all about helping people discover the fascinating method of crystal healing. It introduces to chakras and what they are as well as the many benefits that different crystals can have. This book is aimed specifically at beginners, which means it's written in a way that is easy to grasp and understand. I recommend this book.!!

I am seeking to heal my inner self. The information that I read here is very helpful to me .

Interesting read. Simple enough that my 8 years old can easily understand and follow it. We both find crystals quite fascinating. I was introduced crystals by friends and I loved it, felt the power myself and thought of introducing it to my kid. They looked it..Firstly coz of the colors but then she started reading this book and loved it. Thank you..

There are many typos which I found very distracting. Nevertheless, it's a simple intro for beginners. I appreciated how it touched upon different aspects as how a conversation on the subject would go.

Was looking for a book for beginners on crystals and rocks and what they do and this one is great! It's so easy to read and understand! I'll definitely be ordering the next one in the series!

I have found more Info in my crystal bible. These definitions see more general and broad. Nice to start from though

Very informative, I was able to understand and appreciate what was written about each cystsal, although am a beginner in that field.

Very informative and interesting book
