Customer Reviews

The map was beautiful, jammed with great detail but was very large and will be difficult to use, especially in the car. I would have liked it door size so I could tape to the door in my hotel and plot out the days journey.

if you are interested in a place, a good map is fun to have. i have always liked michelin maps. They should do some maps geared specifically for children.

This map doesn't have the robust paper of the Sardinia regional roadmap. The nice thing about it was that it had better road number markings, and ruin markings throughout the country. Other than that it was harder to use than the Sardinian regional roadmap.
