Synopsis

The new second edition of the sophisticated ScoreCards flip- and flashcard study system yields maximum gain with minimum pain, and it’s fun. Exercise your ability to think fast and recall key facts wherever you are--at lunch, on weekend outings, or between patients. Written by well-known experts, these handy ScoreCards deliver nearly 500 questions keyed to the registry’s own exam outline, plus answers, explanations, and quick references. More than sixty image-based cases prepare you to tackle scans on the exam. Step 3 in Davies’ CME-approved 1-2-3 Step Ultrasound Education and Test Preparation program.

Book Information

Customer Reviews

Cindy Owen’s ScoreCards for Vascular Technology is a must have. The knowledge is well presented and the pocket size enabled me to carry it at all times. The 1-2-3 step review text, mock exam, and Q&A ScoreCards was the key to my passing the vascular registry. Thank you Cindy Owens and Davies Publishing! --Anita Marks, RDMS, RVS, RT(R)After failing for the second time by fewer than 10 points I knew it had to be the way I was studying. ScoreCards fixed that problem easily. The ease of reading, the portability, the quality of images, and the simple, clear explanations made all the difference. I passed because of ScoreCards. Thank you, thank you, thank you! --Frank A. Brunette, RDCS, RVTVery understandable and easy to use. If you are looking for a great review and CME source, this is it!!! --John R. Mullenix, RT(R), RVS

Cindy Owen, RT, RVT, RDMS, FSDMS, is a former ARDMS and ICAVL board member. She is currently Research Manager for Global Ultrasound at GE Healthcare and Director of Clinical Insights and Development at GE Healthcare Point of Care Ultrasound.D.E. Strandness, Jr., MD, was a pioneer in the development of duplex ultrasonography. He played a seminal role in the first edition of this publication. He was professor of surgery and chair of the department of vascular surgery at the University of Washington.

best book to use on the go to review for rvt/rvs

Easy to follow questions. I liked how they referenced the accompanying book with page number on some questions so I knew precisely where to look if I needed further explanation. Good solid spiral binding as well which I appreciate because I take them everywhere.

Excellent selection of study questions! Would recommend these to anyone studying to take their Vascular test!

It helped me review major anatomy and pathology dealing with Vascular. I would definitely give it a thumbs up for a great ultrasound resource.

Ok, so the content of these flashcards is outstanding and I have heard nothing but rave reviews from everyone who I know who has used any of the Davies products to pass the ultrasound RDMS vascular technology exam. HOWEVER, I do not understand how these can even be called flash CARDS. The design is absolutely horrible. They are sheets of regular paper. Not at all what I would expect when I order flash cards - ie you would think they would be at least a bit sturdier than regular paper!!!! When you flip through them, since they are paper, they don’t even flip properly and the holes are tiny so you have to wiggle and finagle each on to get on to the next one. I’m sure within a few days of studying, they are going to be a ripped mess. Very disappointing that for $60, they can’t provide you with something a little more sturdy, you know, that resembles what you think of as flashcards. I can’t bring myself to give less than a 4 star because I don’t the content is quality, but geeeeezzzzzzzz Davies publishers - come on!!!!!

Great cards, the questions have explanations with them on the back of the cards. They are easier

than using a book and wash to carry around.
