Synopsis

Notable Notebooks: Scientists and Their WritingsÃ Â brings to life the many ways in which everyone from Galileo to Jane Goodall has used a science notebook, including to sketch their observations, imagine experiments, record data or just write down their thoughts. You also get four steps to starting your own notebook, plus mini-bios of the diverse featured scientists. Written in captivating rhyme, the text is sprinkled with lively illustrations.

Jessica Fries-GaitherÃ Â is an Elementary Resource Specialist with The Ohio State University. Currently she is working on a free multimedia cyberzine calledÃ Â Beyond Penguins and Polar Bears. This online magazine will integrate polar science, literacy skills, and other cross-curricular content for elementary educators.

I love this book! Anyone looking to inspire young thinkers should get this book now!

Gift to granddaughter for Christmas.

A wonderfully written book explaining the importance of documenting your observations to young scientists. Examples of Scientists come from a diverse background to help inspire all children.AND a copy of this book was sent to SPACE to be read aloud and recorded by ISS astronauts! Your child can hold the very same book that an astronaut read and follow along once the video is available through Storytime From Space.A perfect gift for a child who loves to observe the world around them to encourage them to channel those skills into a habit of investigation.
