Synopsis

A new collection of the adventures of everyone's favorite runaway princess, the incomparable Adrienne. This time she's out to rescue her older sister Angelica, the most beautiful princess in the world. It won't be easy though. Not only does Adrienne have to deal with Angelica's legions of admirers and their sibling rivalry, but the King has hired a band of ruthless mercenaries to track her down. Can she save Angelica? Does she want to? And how will she deal with these deadly knights who are after her head?

Grade Level: 4 - 7

Customer Reviews

Jeremy Whitley is the award-winning writer of the Princeless series. Emily Martin is the talented artist for Volume 2 of Princeless. Not only is she a high-level illustrator, but she is a teacher as well.

I fell in love with this series back in December when I read Volume 1, Save Yourself, and had been looking forward to this volume ever since. It did not disappoint. I loved the title for this one and the way it plays into the plot.First of all, I totally love the theme of the series in general. We have a WOC protagonist who has decided that she has had enough with the status quo and the waiting around and takes matters into her own hands. She even uses the dragon that guarded her castle in place of

a mighty stead. I mean, how could I not love it?So here we catch up with Adrienne and Bedelia, who is her personal blacksmith and sidekick. They are going to save Angelica! Or are they? Is Adrienne the only one to take matters into her own hands? Does Angelica even want saving? Adrienne has many sisters and while it should be easy to expect that they all be different from each other and nuanced and have different points of view, I also know that expectations like that usually end in disappointment.Not this time. Whitley has created this amazing world for us and gives us sisters who neither think the same nor act the same. The outlooks that Angelica and Adrienne have on their like situations are not at all the same and serve to manifest very different outcomes for themselves and those who come to find them.Personally, I loved Angelica. I loved getting another view on the subject of being so admired. I loved that the writers decided to just jump right into the alternative point of view and that none of it went in the direction that I expected. I also loved the rest of the family situation and the foreshadowing of the mysterious Black Knight that I have my suspicions about.As before, the art is wonderful. The way that Angelica is obviously a little older and is more beautiful and even a little sexy without being overdone or exposing anything was impressive. The rest of the art is fun and colorful and keep it obvious that it’s an all ages comic. If you haven’t jumped in on this series, I suggest you do. I’ve already started the third volume and plan to post it soon!

Great story for those with daughters that would like a positive role model. Main character re-writes the classic story and decides to save herself from the tower guarded by the dragon! Shows that castle/dragon adventures aren’t just for boys! Also great to read to boys so that they don’t get the idea that comics just contain boy characters, or that comics are just for boys. Great way to break the stereotype! Solid story full of adventure! My kids are a little too young for this, but my friends 9 year old daughter really enjoyed it!

Princeless is such an amazing, inspiring, and crazy graphic novel! It really is the story that Disney should have been telling for years. Weather they are running away from an ice lion or trying to get rid of an annoying poet, the the blacksmith and the princess (or as I like to call them "the crazy hair girls") are always up to something. If you like graphic novels, funny books or comics with great art this is the book for you!

great comic for girls

Whitley and Martin have created an instant classic that pokes fun at storybook tropes and empowers its female characters. A fun story for all ages, but especially loved by my young daughter.

This was a very good sequel, and it seems that there will be more to come. The only thing I wish was that he made it a bit longer. Whenever I reach the end, I feel the need to read more of the series.

This is a fantastic comic book! I love how it is a refreshing new take on princesses and battles sexism in the cutest, funniest way. I'm sure it's wonderful for kids, but I am 21 and thoroughly enjoyed it. Arrived in great condition.

I like how it plays with fantasy and comic cliches. I picked up a copy for my daughter and nephews but enjoyed it myself. I thought the interaction between the sisters was the best part as it reminded me of the typical kind of fights you have with older siblings, especially those whose priorities are so different.
