Customer Reviews

Worst Product Ever!False Advertising stating it was MBE questions.Questions just state the elements of the offense or different types and have you choose D) all of the aboveNo fact pattern question like the MBE, basic definitions.Typical 1L nonsense. If you count on this you will def fail the MBE!Do not buy!The only thing I am considering is how to file a lawsuit against Richard Campbell and His Publishers forMisrepresenting what this book is....absolute crap!I am going to ask for my money back.

Based on MBE questions, these are not hard enough as given on exam thus making it essentially a

waste ot time and money to use this as a studying material

Not bad. There are better products for bar review. I added Barmax to my review together Barbri books and like it better.

You'll start to notice a pattern pretty early on.BUT for me the questions were great learning tools for memorizing elements.Plus it was great to get a ton of questions right and feel super confident.Glad I bought this! Seriously, 300 questions for this price is a steal.

Okay, it's only five bucks; but my 10 year old niece could answer every question in the book! Definitely not actual MBE questions, nor are they serious MBE level questions!

Poorly written, found errors, not at all MBE style and the same answer letter for 10 in a row??? Spend the money and get a better review than this.

Several incorrect answers, and overall very simplistic. Don't waste the five bucks.

These questions were not MBE questions as they would appear on an actual bar exam. They are not helpful at all.
