I’ve started doing my own research before getting this book so I have some idea already what I’m

interested in doing while in Sao Paulo. This book adds just about nothing to what I've already found--having the map is useful I guess but that's online too! The only thing I'm finding unique is the menu reader page which is a very short list of common foods. Do not think that this resource will be enough to plan a trip to Sao Paulo, waste of money!

Great.
