Customer Reviews

My seven-year-old son loves this series. Lots of fun mythical creatures interacting and this book was no exception. He loves under the sea themed things, so that was an added bonus. My only complaint is that there isn't a lot of substance to these stories, they're more similar to a graphic novel. They do keep my son entertained and make him want to read, so I added the fourth star for that reason.

my going-on 9-year old non-reader loves this series aand wants book #4 which unfortuantely does

not exist.

My 6 year old loves this book and he rates it 5 stars. He says he loves it, because it’s a great book.

My son couldnt put it down! He loves the series and finished the book the same day day he started reading it! Also preorder guarantee was great and saved me 3.00 on day of release.

The Yeti Files are very entertaining and are easy to read. My 8 year old immediately wanted to order another one, after he finished the first book. We’ve read all of them now, so we hope more is to be published soon.

7 yr old son loves these books.

We devoured this book! My 8 year old and I loved it. The illustrations flow so well with the story that it makes you want to keep reading. The story has a nice plot and a good social and environmental message.
